

Rabbit Resistant Plants

Rabbit Resistant Plants

No plants can be said to be rabbit proof. Rabbits eat virtually anything, and most plants are especially vulnerable when young. However, there are some plants which rabbits generally avoid. We have drawn on several sources to provide the suggestions listed here.

In general rabbits are discouraged by—
Very aromatic plants,
Prickles and spines,
Tough, leathery leaves.

The following plants are worth testing:

Shrubs

Barberry
Blue Mist Spirea
Boxwood
Broom
Cotoneaster
